

STAGE AND SCREEN TECHNOLOGY TOOLS

Travel can be simple, complex, local, international, and everything in between.

Designed for the individual needs of each business, Stage and Screen offer two online booking solutions:

1. **StageGo** is for organisations in need of a cost-free online booking tool.
2. **SAVI** is our top recommendation for any size of organisation with more complex travel needs. It's a customisable solution that gives you control over every element of the online booking process.

stageGO

StageGo is a fully integrated online travel booking solution for booking business trips with minimal fuss.

StageGo benefits include:

- Streamlined user interface for fast and easy management of travel bookings.
- Full integration with airline programs, including Qantas Business Rewards and Virgin Business Flyer, for savings and benefits.
- More savings with Stage and Screen's exclusive Hotel Offers, including entertainment rates and discounts.
- Efficient payment options you can tailor to your billing cycle.

With StageGo features, you have options to a selection of reference fields, Stage and Screen mobile app bookability, guest traveller functionality, and the capability to load car hire discount codes.

Your travellers will have full access to our global network by the next business day.

stageSAVI

With **SAVI**, your business has access to all StageGo features, with additional capabilities, as part of a customised build.

SAVI features include:

- Deeper integration with our Stage and Screen mobile app, allowing travellers to book and change trips via the app.
- Customisation of reference fields to match travel policy and supplier agreements.
- Flexible travel authorisation solutions and cost centres.
- More payment options including credit card and invoice account.
- Full hotel chargeback options.

A one-off charge will be applied for the additional capabilities, customisation and training required, depending on the complexity.

Your customised SAVI travel solution can be up and running in as little as 2 weeks!

CUSTOM DASHBOARD – THE HUB

The Hub consolidates all bookings and support tools into one simple, secure platform. Whether you're coordinating multiple travellers, managing budgets, or handling last-minute adjustments, everything is easy to find, update and action.

Within the Hub, you can:

- View company travel policies and approval rules
- Store traveller preferences, profiles and contact details
- Connect directly with your dedicated Travel Manager

Designed to reduce admin, streamline communication and keep your team moving.

SUSTAINABILITY & EMISSIONS REPORTING

Stage and Screen supports your organisation's sustainability goals with comprehensive carbon and wellness reporting capabilities.

Environmental Tracking:

- Over 200 report types with interactive dashboards
- Top routes and destinations analysis
- Total CO₂ emissions from air, car, and hotel bookings Integration with existing offsetting partners
- Prioritisation of eco-certified accommodation and hybrid/electric vehicle options
- All calculations based on the Greenhouse Gas (GHG) Protocol - the world's most widely used standard

Traveller Wellness Insights:

- Red-eye flight frequency monitoring
- Time-of-day travel patterns analysis
- Weekend hotel stay tracking
- Fatigue reduction and wellbeing improvement metrics

REPORTING INNOVATION

Turning travel data into actionable intelligence with  Power BI

Stage and Screen's **Power BI Reporting Suite** brings together every booking — online and offline — to deliver 365-day visibility across your entire program with real-time dashboards available on demand.

Standard reporting suite includes:

- Overall travel spend analysis
- Air, hotel, and car spend breakdown
- Advance purchase and lost savings tracking
- Online booking performance metrics
- City pair and preferred supplier analysis

Advanced Capabilities

- Custom Fields: Add reporting fields for job numbers, cost centres, departments, or events
- Interactive Dashboards: Available 24/7, 365 days a year with granular drill-down capabilities
- Automated Reports: Schedule regular reports or access instantly
- Quarterly Data Insights: Sessions with your Account Manager to turn metrics into strategy
- Forward Visibility: Weekly forward bookings and credits-on-hold reports

Data Accuracy & Value

Our reporting ensures you have the evidence needed for:

- Supplier agreement negotiations
- Policy compliance verification
- Performance measurement and refinement
- New opportunity identification
- Future strategy development

Every report includes tailored recommendations and updates aligned with our ongoing Technology Roadmap to drive program evolution.
